

the STUCCO LAMP

designed by Julia Jessen | 2024

Embodying a harmonious duality of clear forms and softened surfaces, the Stucco lamp stands for a poetic union of sensibility and dynamic design. The thoughtful interplay of smooth and tactile ceramic surfaces imbues depth and character, creating a captivating sensory experience. The Stucco lamp stands out with its paired sculptural pieces — a meticulously crafted canopy for the ceiling and a socket designed to embrace the warm glow of a globe bulb. This synergy of elements not only bathes your space in light but also unveils an artful approach to bringing creative luminosity into any environment.
